Deflection Head Track Technical Datasheet

Description

The Deflection Head Track allows a vertical movement from the ceiling/ roof. This vertical deflection prevents loads from being transferred to the studs.

Primary Data

Drywall Product	Deflection Head Track
Standard Compliance	ASTM C645
Drywall System	Applicable for Partition & Cinema Systems
Standard Length (mm)	3000 (Other lengths available on request)
Coating	AZ150 Zinc- Aluminium Coating
Steel Grade	G300 Min. Yield Strength: 300 Mpa Min. Tensile Strength: 340 Mpa
Material	Galvanized Steel

Technical Data

Thickness (mm)	Length (mm)	Width (mm)	Flange (mm)
0.80	3000	51,64,70,76,92,100,125,150	50
0.90	3000	51,64,70,76,92,100,125,150	50
