METAL PROFILES BY **RONDO**

L Angle Technical Datasheet

Description

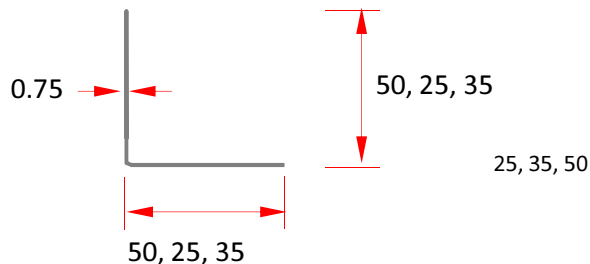

L Angle is the perimeter member for partition & ceiling metal framework. Used for lateral bracing and other structural strengthening applications.

Primary Data

Drywall Product	L Angle
Standard Compliance	ASTM C645
Drywall System	Applicable for Partition, Liner and Cinema Systems
Coating	AZ150 Zinc- Aluminium Alloy
Steel Grade	G300 Min. Yield Strength: 300 Mpa Min. Tensile Strength: 340 Mpa
Material	Galvanized Steel

Technical Data

Part No.	Width (mm)	Thickness (mm)	Length (mm)
552	25 x 25	0.80	3000
553	35 x 35	0.80	3000
554	50 x 50	0.80	3000
