## Quiet Stud Technical Datasheet

### Description

The unique design of the Quiet Stud (together with Gypsemna's lining board), forms an effective buffer against unwanted noise to provide a simple and cost-effective acoustic solution for inter-tenancy walls in any environment that requires a practical and dependable acoustic solution between dividing walls.

### Primary Data

<b>Drywall Product</b>	Quiet Stud
<b>Drywall System</b>	Applicable for Partition & Liner System
<b>Coating</b>	Z180 Zinc Coating
<b>Steel Grade</b>	G2 Min. Yield Strength: 270 Mpa Min. Tensile Strength: 330 Mpa
<b>Material</b>	Galvanized Steel

### Technical Data

Part No.	Thickness (mm)	Width (mm)	Length (mm)
RQST	0.60	92 x 45	3000
