

## Biconic Steel Wire Coils

Springs are hourglass-shaped and the ends of the wire are knotted or wrapped around the top and bottom circular portion of the coil and self-tied.

Bonnel Spring System

## Optimum Comfort

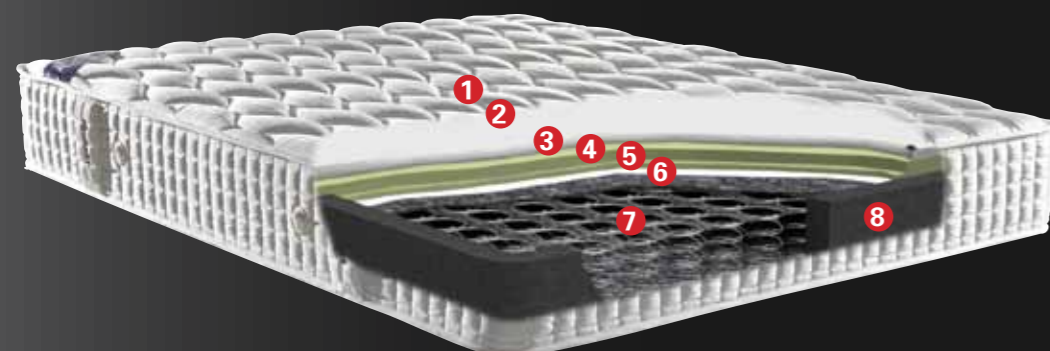

Support entire body structure thus providing you optimum comfort. 1400 gr/m<sup>2</sup> isolation felt equally distributes body weight to spring system.

## Edge Support

HD foam border helps to improve mattress durability, reduces the likelihood of sagging and prevents a feeling of "roll-off".

Mattress height: 30 cm.

Firmness Level

1. Double jersey fabric
2. Polyester padding
3. Soft-touch foam
4. Soft-touch foam
5. HD foam layer
6. 1400 gr/m<sup>2</sup> Isolation felt
