

## DESCRIPTION

- Amplified embedded sounder for timely (hourly) chiming.
- Compatible with SIGMA master clock in DHF mode.
- 16 prerecorded melodies stored in the product itself and/or in an SD Card.
- 2 LED giving information on the operation:
  - LED «~» indicates that the power is on.
  - LED «ψ» is active when communication with the master clock in DHF mode takes place.
- Every time a melody is played, its number is displayed. The sound level is adjusted on each device and for each melody.
- Consisting of one (or 2) flush-mounting loudspeakers and a control unit.

## NORMS

- R&TTE directive 1999/5/EEC.
- EN 60950: Safety of information technology equipment.
- EN 301-489-3: EMC Specific conditions for Short-Range Devices.
- EN 300-220-3: ERM Electromagnetic compatibility and Radio spectrum Matters.

## MODELS

- **2 types of power supply**..... 100 to 240VAC ±10% 50/60Hz or TBT 24 V DC ±5% (TBT=Extra Low Voltage).

Melodys TBT 24V installation precaution: Maximum distance allowed			
Wire cross-sectional area (wire diameter):	0.5 <sup>2</sup> (8/10)	0.75 <sup>2</sup>	1.5 <sup>2</sup>
Number of Melodys on the line:			
15	43 m	62 m	125 m
10	62 m	95 m	190 m
5	125 m	190 m	380 m

- **Important notes**..... 1 – The distance can be doubled by limiting the volume to 7.  
2 – These distance limitations concern only one Melodys line; but it is possible to install several lines in parallel.

## TECHNICAL FEATURES

- **Melodies**..... 16 digital melodies stored in memory.
- **Test mode**..... The choice of the melody.
- **Amplifier**..... Integrated amplifier with volume control.
- **Digital format of the audio files**..... MP3.
- **SD CARD**..... Formatted FAT 16. 2 GB maximum.
- **Duration of a melody**..... Variable depends on the recording.
- **Display**..... Number of the executed melody.
- **Loudspeaker**..... Flush-mounting indoor.
- **2 versions**..... 1 or 2 loudspeakers (240V AC power supply).

## MECHANICAL FEATURES

- **Protection code**..... Speaker IP 30 – Controller IP 54.
- **Operating temperature range**..... 0° to +50°C.
- **Weight**..... Speaker: 0.9 kg – Controller: 0.6 kg.
- **Dimensions**..... Speaker H60 x Ø 190 mm – Controller module H78 x L220 x W154 mm.

## ELECTRICAL FEATURES

- **Power consumption**..... 6 VA.
- **Adjustable sound level**..... 100db maximum at 1 metre.
- **Maximum distance between control unit and loudspeaker(s)**..... 40 metres.
